

For Immediate Release

Empower Aviation Introduces No Hassle Real time Quote System

CINCINNATI, June 19. Business travelers can get real time quotes for charter flights now at www.flyempower.com.

The new real time quote system provides customers with a detailed, guaranteed quote that includes all known trip expenses such as landing and crew fees so there are no hidden costs. In 3 easy steps, customers can plan a single or multi leg itinerary and see the cost in seconds.

“In the past only top-level executives in major corporations used charter flights, but we’ve seen a big shift in the market. Today many small and mid-sized companies fly executives, sales, and technical service personnel back and forth in one day. Considering salary costs, lodging, per diem expenses, and lost productivity of staff on the road, charter flights save money for these companies,” said Daphne Selden, Director of Sales and Charter Services.

“With skyrocketing fares on commercial airlines, many companies are cutting back on travel, but several of our clients have used this opportunity to gain a competitive edge with extra customer service visits. It costs the same to fly up to 12 people on one of our planes, so an entire contingent can visit a customer,” Selden said.

To entertain their best customers, some corporate clients use Empower’s full concierge service to arrange ground transportation, hotel and restaurant reservations, tee-times, in-flight catering and tickets to special events.

“Our clients tell us that their employees are happier because they are away from their families for less time. We can take them to 2 or 3 destinations in one day and get them home in time for dinner. There are no delays because we fly on the client’s schedule.” Selden said.

About Empower Aviation

Operating from a base at the Butler County Regional Airport (HAO), Empower serves over 5400 US airports. As Cincinnati and Dayton Ohio’s premier private air charter and FBO service, Empower Aviation offers a full range of FBO services, including sales, service, maintenance, charter and management of jet, turboprop, and piston-powered aircraft. For additional information, visit www.flyempower.com or call 1-888-525-2FLY.
